

Why does NJ Do Not Call have to be more lenient? Why should it be that spam e-mail, where it is writing and not speaking, should be more regulated than a phone call? It is irritating to hear messages. It is irritating to see on the caller ID "unknown" to only hear a telmarketer. It is extremely annoying to hear a recording/voice response telemarketing call that you cannot even disconnect from until it is complete. Even further, callers do not listen when you ask them to remove you from their list.
